IMPORTANT INFORMATION

CONCERNING

CEPHALALGIA OR HEADACHE,

A REMEDY TO THIS TERRIBLE DISEASE, AND FINALLY A CURE.

BY H. HUTCHINS, PRACTICAL CHEMIST,
SPRINGFIELD, MASS.

1862.

HUTCHINS' HAIR DYE, IMPROVED.

The very best now in use, as the many thousands who have tried it will testify.

THE great superiority of this Dye consists in its easy mode of application, having but one preparation. It also contains twice as much as any other, and is sold at a much less price. This Dye imparts to the Hair the most natural color of any yet discovered; and instead of injuring it, gives it the beauty and elasticity of youth. This Dye is having the largest sale of any Dye in the market, and is warranted to give better satisfaction than any yet offered to the public.

Certificate from MR. J. A. SASSARD, *Boston, Mass., manufacturer of Wigs.*

H. HUTCHINS: Dear Sir,—Having tried your Hair Dye, which you gave me for trial, I have found it to be superior to any other Hair Dye I ever tried, both in its simplicity and most natural color. The application requires less trouble; I may add no trouble at all. I therefore wish to use it, recommend it to all my customers, and warrant it in consideration of my profession, and desire to promote the universal use of your Dye. I am your most obedient servant,
J. S. SASSARD.

HUTCHINS' HAIR DYE.—This article is decidedly the very best in use. We have seen it tried and can confidently recommend it as superior to any other article we have seen. We are acquainted with many grey heads who use it, and they declare that they would not be without on any consideration.—*Yankee Blade.*

We have seen a successful use and application of this Dye, and it seems to possess the qualities ascribed to it.—*Springfield Repub.*

So have we seen it tried, yes, and have tried it ourself, and we know the above is true to the letter. If there is any preparation in use for the purposes intended, that will surpass it, we will puff it six months for nothing. For sale by the Druggists in the village.—*Chicopee Telegraph.*

HUTCHINS' HAIR DYE.—This is an unrivalled article. No inconvenience attends its application, and its effects are entirely satisfactory. The Dye is sold in all the principal markets of the Union, and has a sale beyond all precedent. Being personally acquainted with the proprietor, we know whereof we affirm.—*St. Charles Republican.*

Wholesale Agents.

M. S. Burr & Co., G. C. Goodwin & Co., Weeks & Potter, Boston, Mass. Conrad Fox, Barnes & Park, New York. T. W. Dyott & Sons, Philadelphia.

Entered according to act of Congress, in the year 1858, by
H. HUTCHINS,
In the Clerk's Office of the District Court of the District of Massachusetts.

HUTCHINS' RECEIPT BOOK.

The age in which we live is an age of improvement. We see, almost from day to day new and valuable discoveries in the arts and sciences, but seldom any valuable improvements in the art of healing. Every valuable discovery has been the result of long and diligent research, profound study and investigation, and experiments with certain articles of our *Materia Medica* until they are brought to perfection. The motto of our age is onward, the old stereotyped notions and opinions of our fathers and forefathers are fast giving way to the improvements of the present. And while the mind of man has been busily engaged in every department of Physical and Natural Science, the results of which have astonished the world, is it possible the science of Medicine has stood still? Are we no wiser than the generations who have preceded us? Has the accumulated wisdom and research of the Nineteenth Century thrown no light upon our vegetable *Materia Medica*?

We can truly say that there are a few isolated cases in which the skill and ingenuity of scientific men have brought out from the great laboratory of nature some truly valuable medicinal compounds, so combined as to give the highest efficacy and value, and we have carefully analyzed strong natures to prepare a balm for the scourge of man. We have studied the causes and effects, and in HUTCHINS' HEADACHE PILLS we offer you a *sure cure*, a certain preventive, for all the ills that afflict mankind. Few are exempt from the headache, which is the sure and unfailing forerunner of all mental and bodily diseases, yet none need suffer, we offer you a remedy, and place it before the people, as combining the results of our thought and study, and bring indeed a *Blessing to Mankind*. These Pills are purely vegetable and prepared with the truest views, at a price within the reach of all, and they are sure and effectual, for their action is unfailing.

H. HUTCHINS.

Springfield, Mass., January, 1860.

DISEASES THAT ARE EFFECTUALLY CURED BY THE USE OF HUTCHINS' CELEBRATED HEADACHE PILLS.

The Chronic headache we call No. 1,
The Nervous headache we call No. 2,
The real Sick headache we call No. 3,
Hutchins' Pills for each a sure remedy.

IMPAIRED DIGESTION, they will surely restore,
Testimony comes echoing from all the world o'er;
Corrects circulation, indigestion foils,
And its work of death completely spoils.
Are you troubled with dizziness of the head?
You never should suffer yourself to be bled,
For Hutchins' Pills are perfectly sure
To effect a speedy and positive cure.
NEURALGIA's victims these pills have cured,
Whose mocking pains they long endured,
Whose hopes were torment; torment sore,
And oft they wished their life was o'er.
PAIN in the STOMACH, they cure to a charm,
The power of indigestion completely disarm,
And stop the forerunner of Dyspepsia, sure,
And yield to the system a permanent cure.
The victims of ASTHMA their trophies now bring,
And praise to our pills they gratefully sing,
For the relief to their breathing at night in their bed,
And the soft quiet pillow they furnish their head.
Irregular Nervous Stimulation of this disease the cause,
Are found by these pills to obey natural laws,
The air cells guard against enlargement sure,
The air tubes from contraction keep both free and pure.
NERVOUS IRRATABILITY, the foe of all peace,
Which efforts to cure oft the disease will increase,
Receive the information I now freely give,
Use Hutchins' Pills and your disease cannot live.
Are you troubled with wind and no remedy found,
These pills will cure and render you sound,
The same in sea-sickness they work to a charm,
Nausea of the stomach completely disarm.
By their use you can rest 'mid scenes of the Ocean,
When the proud briny waves are in perfect commotion,
They are used for the scurvy with perfect success,
Its unfortunate victims to cure and bless.
The sad victims of Rheumatism and Gout combined,
To their room or bed so often confined,
Have been reached by these pills and set perfectly free,
As thousands still suffering by their use may still be.
BILLIOUS sufferers of all kinds may enjoy perfect health,
These pills will secure them this gem of all wealth.
All female obstructions by these pills are cured,
Even after long years of suffering endured.
No blessing more rich, it is honestly believed,
Than these pills to the females was ever conceived,

Their effect on the liver diseased and unsound,
The most incredulous would perfectly astound.
How many now suffering could soon be released,
If these pills could be reached and the truth be believed.
These weakening night sweats, are suffered severely,
But tonic restoratives you see very clearly,
Will renovate the system by enriching the blood,
Restore normal action to the system without food.
The colic by these may at once be prevented,
As thousands have boldly already assented,
The disease or its causes by these pills are removed,
As their trial has happily and abundantly proved.
Many persons by Flatulency are sorely distressed,
By wind in the bowels or the stomach oppressed,
Impaired digestion may be reckoned one cause,
Loss of tone to mucus membrane disturbs nature's laws.
By this the alimentary canal is impaired,
Hutchins' pills such victims often has spared;
To Fever and Ague these pills are lion foes,
They kill that disease with all its dread woes,
Even West, North or South, where old Ether fails,
Hutchins' pills, the Conqueror, always prevails.
Would you correct a sour stomach just try these pills,
And save your time and large Doctors' bills.
General debility, intermittent fevers, yield quick to their power,
Have saved from the grave many a beautiful flower.
By their use loss of appetite is fully regained,
Not one who has tried them has ever complained.
And of costiveness every man may keep perfectly free,
Who will heed the advice now offered by me,
Take two of these pills if these symptoms appear,
And a very few boxes will correct you a year.
'Tis sad to see thousands go down to the grave,
Whom Hutchins' pills have the power to save;
The Jaundice is cured, as many now know,
And yet what sufferings its victims will still undergo.
Dysentery and Diarrhoea yield quick to these pills,
Yet how many neglect them and die with their ills.
I know of many who were partially blind,
Who toward our pills were favorably inclined,
Who, when they discovered their properties sure,
Used them at once, and received perfect cure.
They prevent the dropsy,—a failure not known,
When these pills were used and these pills alone.
If prejudice prevails, many lives will be lost,—
Prejudice better set down and count over the cost,—
Give reason a hearing, regard precious life,
And with prejudice against reason no longer hold strife.

FOOD AND DRINKS FOR THE SICK.

GENERAL REMARKS.—Always have every thing you use very sweet and clean. Avoid giving an invalid any thing out of a cup that has been used before; even if it is *medicine*, it will not be so hard to take it out of a *clean cup*. Never cook articles for the sick over a smoke or blaze, as you will thus impart a *smoky* taste. Be very careful, in putting in seasoning; not to put in *too much*, as it is easy to add, but not to subtract. When the mixture is thick stir often to prevent burning.

If you want any thing to use through the night, you should prepare it, if possible, *before-hand*, as a person that is sick can sometimes fall asleep without knowing it, if the room is *kept perfectly still*.

SEVERAL WAYS OF PREPARING CHICKENS FOR THE SICK.

Chicken Tea is made by boiling any part of the chicken, and using the broth weak, with only a little salt.

Chicken Broth is made by boiling a chicken a good deal, and skimming very thoroughly and seasoning with salt. A little rice, or pearl barley, improves it, or a little parsley may be used to flavor it.

Nervous Headache is completely cured by Dr. Hutchins' Headache Pills; they act silently on the system, quietly removing the CAUSE of the disease.

Dropped Egg.—Salt some boiling water, and drop in it a raw egg out of the shell, taking care not to break the yolk; take it up as soon as the white is hardened. Dip some toast in hot water, and put salt or butter on to it, and lay the egg on the top.

Herb Drinks.—Balm tea is often much relished by the sick. Sage tea also is good. Balm, sage, and sorrel, mixed with sliced lemon and boiling water poured on, and then sweetened, is a fine drink.

Herb drinks must often be renewed, as they grow insipid by standing.

Other simple Drinks.—Pour boiling water on to tamarinds, or mashed cranberries, or mashed whortleberries, then pour off the water and sweeten it. Add a little wine if allowed.

Toast bread very brown, and put it in cold water, and it is often relished. Pour boiling water on to bread toasted very brown, and boil it a minute, then strain it, and add a little cream and sugar. Make a tea of parched corn pounded, and add sugar and cream.

Beef Tea.—Broil a pound of tender, juicy beef ten minutes, salt and pepper it, cut it in small pieces, pour on a pint of boiling water, steep it half an hour, and then pour it off to drink. Another way is slower but better. Cut the beef in small pieces, fill a junk bottle with them, add a little water, and keep it five hours in boiling water. Then pour out, and season the juice thus obtained.

Tomato Syrup.—Express the juice of ripe tomatoes, and put a pound of sugar to each quart of the juice, put it in bottles and set it aside. In a few weeks it will have the appearance and flavor of pure wine of the best kind, and, mixed with water, is a delightful beverage for the sick. No alcohol is needed to preserve it.

The medical properties of the tomato are in high repute, and it is supposed that this syrup retains all that is contained in the fruit.

Hutchins' Headache Pills cure Sick Headache.

BURNS AND SCALDS.

Burns and Scalds are of such frequent occurrence, that every family should know what to do for them *immediately*. The following have been *thoroughly tested*, and may be relied upon as efficacious: If the *Burn* or *Scald* is not very deep, or the skin broken, though it may be blistered some, apply *raw cotton*, spread out or carded, and laid in considerable quantity directly over the *burn*. Bind it on slightly, and let it remain some time. When it is removed, the fire will be found to be all drawn out, and it may be dressed with the *Salve* recommended below. Simple as it may appear, this is the *best application* for burns of this character, that has ever been tried.

If the *burn* is very severe, apply to it a poultice of ground *Slippery Elm Bark* and *Milk*. This poultice is made in the same way as a Bread-and-Milk poultice. Scald the *Milk*, and thicken it with the ground *Elm Bark*. When it has been spread *thick* on a cloth, cover it well with *Olive* or *Sweet Oil*. The poultice should not be suffered to get dry, but must be changed often. After the pain and inflammation have been removed, dress it with the salve recommended below.

Where it is impossible to obtain the *Elm Bark*, *Potatoes* or *Turnips* scraped fine, make a good application. *Cold Water* is also excellent to apply, is always at hand, and may be used before any other means can be procured. Linen or muslin cloths may be wet with it, applied, and often renewed. The relief is oftentimes immediate, and the part is kept from blistering.

Spirits of Turpentine, mixed with *Sweet Oil* (equal parts of each,) applied to a burn, will soon remove the pain, *where the skin is unbroken*.

Should the blisters raised by a burn break, and the skin drop off, dust the raw surface thickly with *Wheat flour*, and allow it to remain. It will soon form a crust that will effectually protect the burn from the air. In a few days it can be taken off, and the wound dressed with the salve recommended below.

Sometimes *hot water* or liquids are taken into the mouth or swallowed; when this happens, let it be gargled with *Borax Water* (made by dissolving one Ounce of pulverized *Borax* in a Quart of *Rain Water*,) and a *mucilage* of *Slippery Elm*, be freely drank; also give the patient occasionally a portion of *Olive Oil*.

When the *burn* degenerates into an *ulcer*, and becomes difficult to heal, in consequence of *proud flesh*, sprinkle over it occasionally a little powdered *Burnt Alum*, and dress it with *Salve*, or a *Bread-and-Milk Poultice*, the same as any common sore.

Arrowroot Custard for Invalids.—One table-spoonful of arrowroot, one pint of milk, one egg, one table-spoonful of sugar. Mix the arrowroot with a little of the cold milk, put the milk into a saucepan over the fire, and when it boils stir in the arrowroot and the egg and sugar, well beaten together. Let it scald, and pour into cups to cool. A little cinnamon boiled in the milk flavors it pleasantly.

SUFFERING.

One of the dreadful legacies which we inherit, and which we bestow upon our children and children's children is *Nervous debility*, causing Neuralgia, Headache, Pains in the limbs, and oftentimes an imbecile mind. Dr. Hutchins' Pills are the best restorative in existence. Sold by the Druggists generally, throughout the country.—*Lynn Bay State*.

FOR BILIOUS COMPLAINTS.

Take a dose of Hutchins' Headache Pills before eating or on going to bed at night.

ANTIDOTES FOR POISON.

Cases of *Poisoning* are so sudden and so awful that no time is to be lost in administering relief. Of course, we presume that whenever a person has by mistake swallowed *poison*, a physician will be sent for immediately. But as some time may elapse, especially in the country, before he can arrive, we have thought best to mention the *more common poisons*, and give some plain directions for each, which should be followed *immediately*, or as soon as possible after the *poison* has been swallowed. They are what your Physician would do *first*, if he were present; and when he comes he can direct the further treatment.

1. *Oil of Vitriol* or any of the *Mineral Acids*.—Administer large doses of calcined or pure *Magnesia* (not the Carbonate,) or copious draughts of *warm, strong soap-suds*, or *Pearl-Ash water*.

2. *Tartar Emetic*.—If one has taken an overdose of this article, first tickle the throat with a feather, and drink freely of *lukewarm water*, to bring on *free vomiting*. If vomiting is not quickly induced, let the patient drink largely of a *tea* made from *Peruvian Bark*, very strong, which will decompose the poison. If *Peruvian Bark* is not at hand, strong decoctions of *Nut-Galls*, or *common Tea*, should be administered, until the former can be obtained.

3. *Saltpetre*.—This is often taken by mistake for *Glauber* or *Epsom Salts*. First vomit the patient freely with *Mustard-Seed Tea*, and let him drink copiously of *warm Flax-Seed Tea*, or *Slippery Elm Tea*. If the pain and distress in the stomach is very severe, give from 25 to 100 drops of *Laudanum* every half hour, until easier.

4. *Laudanum*.—When taken in too large quantity, it must be withdrawn from the stomach by active *Emetics*, or by tickling the throat with a feather. Three grains of *Tartar Emetic*, or twenty-four grains of *White Vitriol*; or ten grains of *Blue Vitriol*, or a full dose of *Ipecac*, are the best, but if these can not be had, vomit with the *Mustard-Seed Tea*. The *Stomach Pump* may be used to remove whatever remains of the poison. After vomiting, *but not before*, let the patient drink freely of *Vinegar and Water*. Do not let him lie still a moment, but *keep him moving* until the Physician arrives. The same treatment will answer where *Opium* has been accidentally swallowed.

5. *Henbane*, *Hemlock*, *Belladonna*, *Hellebore*, *Colchicum*, etc., produce symptoms very similar to *Laudanum* or *Opium*, and requires the same mode of treatment.

6. *Lunar Caustic*, or *Nitrate of Silver*.—Administer immediately a teaspoonful of common *Table Salt* (dissolved in water,) and repeat this every hour for three or four times. Also let the patient drink freely of *warm Flax-Seed* or *Slippery Elm Tea*, to promote vomiting.

7. *Sugar of Lead*.—It is best to give immediately a large dose of *Epsom* or *Glauber Salts*, or of plaster of paris, mixed with the hardest pump water that can be procured; any of which will decompose the poison. *Phosphate of Soda* is also an excellent antidote. If the patient do not vomit, give an emetic of twenty-four grains of *Sulphate of Zinc*.

8. *Oxalic Acid*.—Crystalized *Oxalic Acid* looks very much like *Epsom Salts*, though the taste is very different. This Acid tastes *sour*, *Epsom Salts* taste *bitter*. In an overdose it is a terrific poison. The chief antidote is *Magnesia* (not calcined,) or *chalk*, or the *mortar*, or *plaster* taken from a wall, mixed thick in cold water, and swallowed copiously. Any of these will decompose it. Solutions of *Soap* or *Soda*, or *Potash*, must not be given. After giving any of these *antidotes*, twenty-four grains of the *Sulphate of Zinc* may be taken.

9. *Spanish Flies*, or *Tincture of Cantharides*.—No antidote is known for the poison of *Spanish Flies*. The only method of relieving the patient is to apply the stomach pump, give copious draughts of *Gum Arabic*, *Slippery Elm* or *Linseed Tea*, or *Starch and Water*, and treat the case as if it was one of in-

flammation of the stomach. ☞ *Oils* of every kind should be carefully avoided, as they are the best solvent of the active principle of the Fly, and consequently render it the more injurious.

10. *Corrosive Sublimate*.—The best *antidote* to this poison is the *Whites of Eggs*. Take the *Whites* of ten or twelve *Eggs*, mix them in a little new *Milk*, and make the patient swallow the whole at once, or as much of it as possible. Repeat this quantity every hour or so. If this remedy excites fresh vomiting, *so much the better*. When *Eggs* cannot be had, mix up some *Flour* and warm (not hot) *Water*, and make the patient drink largely of it.

11. *Sulphate of Zinc*.—This very closely resembles the *Sulphate of Magnesia*, and has often been mistaken for it. The best remedy is to let the patient drink *very large quantities of Milk*, which will decompose the *Sulphate* in the stomach.

12. *Sulphate of Copper*.—This *Salt* is not likely to be taken into the stomach in its crude state; but whole families are often poisoned by the careless use of *Copper vessels* in cooking. When this occurs, the most effectual remedy is the *Whites of Eggs*, and copious draughts of warm *Milk* and *Sugar* or *Molasses*.

13. *Arsenic*.—The only known *antidote* to this deadly poison is the freshly prepared *Hydrated Peroxide of Iron*; and this is effectual only when taken soon after the poison has been swallowed. But as this cannot generally be obtained in the country, one's sole dependence must be on the *Whites of Eggs* given with *Milk* or *warm water and sugar*, taken in large quantities. These, however, should be preceded by the judicious use of *Emetics*. Dr. Chisholm considers the fresh juice of the *Sugar-Cane* as the best *antidote*.

All the foregoing *Poisons*, when kept in the house, should be plainly labeled.

A HEAVY FAILURE.

Until the introduction of Dr. Hutchins' Headache Pills into the city of Troy, every attempt to cure the Headache failed. Now the malady can be cured in a short time.—*Troy Whig*.

Sold by the Druggists everywhere.

ADVICE TO FEMALES.

Females who value good health, should never be without a Box of Hutchins' Headache Pills.

Rheumatic Plaster.—Take half a pound of resin, and half a pound of pulverized sulphur—melt them by a slow fire; then add one ounce of pulverized cayenne pepper, and half an ounce of powdered camphor gum. Stir it well until it is mixed, then temper it with a little Neatsfoot Oil.

To be spread on a piece of soft leather, and applied to the affected part.

To cure a Cough or Cold.—The editor of the Baltimore Farmer says, the best remedy he ever tried in his family for a cough or cold, is a decoction of the leaves of the pine tree, sweetened with loaf sugar, to be freely drank warm on going to bed at night, and cold throughout the day.

STILL THEY COME.

The orders that are every day received for Hutchins' Headache Pills, is almost unprecedented in the annals of business, and in order to meet the demand, the proprietor has determined to increase the facilities for their manufacture. Their virtue is acknowledged by thousands, and no person should be without them. Sold by all druggists.—*Traveller*.

Hutchins' Headache Pills cure Bilious Headache.

SHAKSPEARE ON THE HEADACHE.

She never told her ache,
 But let concealment, like a worm in the bud,
 Feed on her damask cheek; she pined in thought,
 And, with a green and yellow melancholy
 She sat, like Patience on a monument,
 Smiling at the Sick Headache, when, with a box
 Of *Hutchins' Headache Pills*, she might have been
 Smart as a cricket.

Preserved Hams.—After the hams are smoked, put them back into the brine from which they were taken, if it is in good condition. The hams will get no saltier, and, if kept covered with brine, neither the air nor flies can touch them, and they will remain sweet and good until used. I am satisfied that the above recipe is worth more than the weight of this book in gold to all who use it.

Grape Vines.—*A Hint to be Remembered.*—The grape is a great feeder. Many people wonder why their vines do not bear. It is simply because they are not fed. Give them an immense top dressing of stable manure, spreading over all the ground where the roots run, remembering that they run a great distance. Then in the spring prune closely.

COLD IN THE HEAD.

Remedy. Take 4 of Hutchins' Headache Pills on retiring to bed.

Dr. Esquirl, a French physician of great renown, whose writings is quoted as high authority, says, that Headache is the sure forerunner of all the maladies which afflict the human race.

He also says, "can my humble efforts awake thousands to the early stages of disease and death, I shall be satisfied that I have neither lived or written in vain, and one victim of early *Headache* saved by the alliance of my voice to that of nature will repay me an hundred fold."

Ringworms.—Take *Yellow Dock Root*, steep it in *vinegar* until the decoction is as strong as you can make it, and wash the ringworm with it three or four times a day. This is said to be very efficacious for other humors.

Abercrombie says that *Headache* is the link between the seat of disease and the brain, it is the general symptom that inflammatory influences are at work, that the war of disease has actually begun; and in his able dissertation on the brain and its diseases has cited 170 cases of death arising from sources in each of which *Headache* was the primary symptom.

BYRON ON THE HEADACHE.

HEADACHE.

For in that word — that fatal word — how e'er
 We promise — hope — believe — there breathes despair.
 Till *Hutchins' Headache Pills* spread o'er the land,
 And Headache flies — cut stick — at their command!

Piles.—Make constant use of a syringe, with warm water and molasses; it will *certainly effect a cure* if persevered in daily, morning and evening. For an ointment, make use of lard, sulphur, and cream of tartar, simmered together.

For Hair Coloring see 2d page of Cover.

A FACT WORTH KNOWING.

It has been ascertained by nice and discriminate observation that nine-tenths of the human family suffer more or less with Headache or Neuralgia, and until recently no effectual remedy has been discovered. It is also estimated from the quantity of Dr. Hutchins' Headache Pills which have been ordered during the last six months, that 50,000 people have used them and found relief. Sold by Druggists everywhere. Price 25 cents.—*Albany Times*.

Mosquitoes.—Good, if True.—Parley's Magazine contains the following:—To get rid of these tormentors, take a few hot coals on a shovel, or a chafing dish, and burn upon them some brown sugar in your bed rooms and parlors, and you effectually banish or destroy every mosquito for the night.

Bleeding at the Nose.—Soak the feet in warm water; put lint upon the nose, wet with hot drops, and keep the temples wet with cold water. Or, pour cold water on the back of the neck, and put a ball of rag up the nostril, dipped in equal parts of white of egg, sugar, and burnt alum.

NERVOUS people are extremely liable to Headache, it also affects persons in whom the digestive organs are diseased, and who are troubled with dyspepsia, and a disease of the Nerves, and is sometimes brought on by hard study, anxiety, and perplexity in business, by change of weather, by too great a degree of light from the sun; whatever distresses the nerves in general will bring on the Headache. From 4 to 6 of Hutchins' Headache Pills will regulate the stomach, quiet the nerves, and set you all right.

Toothache.—Alum, reduced to a powder, two drachms; nitrous spirits of ether, seven drachms; mix, and apply a little to the tooth. This is a certain cure. Or, put into the tooth, a pill made of camphor and opium.

Domestic Yeast.—Persons who are in the habit of making their own bread can easily manufacture their own yeast by attending to the following directions:—Boil one pound of good flour, a quarter of a pound of brown sugar, and a little salt, in two gallons of water, for an hour; when milk-warm, bottle it, and cork it close, and it will be fit for use in twenty-four hours. One pound of this yeast will make eighteen pounds of bread.

HEADACHE often arises from a morbid state of the stomach in consequence of an effusion of Bilious matter, which can be carried off by using Hutchins' Headache Pills.

To make Hens Lay perpetually.—Give your hens half an ounce of fresh meat each, chopped fine, once a day, while the ground is frozen, and they cannot get worms or insects; allow no males to run with them, and they will lay perpetually. Try it.

They also require plenty of grain, water, gravel, and lime.

Peach Trees.—Plant fansy around the roots of peach trees. The peach worm will not trouble them afterward.

To remove Ink Spots.—Ink spots can be removed by saturating them with lemon-juice, and rubbing on salt, and then putting them where the sun will shine on them hot for several hours. As fast as it dries put on more lemon-juice and salt. When the lemon-juice cannot be obtained, nitric acid is a good substitute. Iron-mould may be removed in the same way.

For Hair Coloring see 2d page of Cover.

HUTCHINS' HEADACHE PILLS.

These are recommended with the utmost confidence as the best purgative medicine known; they cleanse the stomach, remove the various affections of the Liver, Costiveness, Headache, and giddiness of the Head.

Panes of Glass—May be easily removed by the application of soft soap for a few hours, however hard the putty has become.

HAIR DYE.

The best Hair Dye now in use is Hutchins', which contains twice as much as any other, and is sold at a much less price.

To renovate a Razor Strop.—1. Rub a little clean tallow over the surface, and then put it on the light top part of the snuff of a candle; rub it smooth. Excellent.

2. Rub the strop with a piece of soft pewter or lead.

A SURE CURE.

By a natural action upon the fluids of the system, dislodging superfluous bile, the most violent case of *Bilious Headache* can be completely dissipated by the use of Hutchins' incomparable Headache Pills. Sold by all the druggists; price 25 cents.

Isinglass Jelly.—Isinglass, $\frac{1}{2}$ pound; water, 1-gallon. Boil until of sufficient consistence; then add milk, 3 pints; white sugar 7 ozs.

To escape the effects of Lightning.—1. Avoid standing under trees, to escape from rain during a thunder storm, but boldly expose yourself to the wet; it will preserve you from the lightning.

2. Avoid standing close to any metallic bodies, as lead pipes, or iron railings, etc.

3. When in doors, during a thunder storm, sit or stand as near to the middle of the room as convenient: avoid standing at the window, or sitting near the wall.

PALPITATION OF THE HEART.

This complaint is generally caused by a deranged circulation of the blood, which usually accompanies Dyspepsia, Liver Complaint, Dropsy, and a diseased state of the heart. Those in advanced stage of the Liver Complaint or Dyspepsia are peculiarly liable to it. Hutchins' Pills operating as they do upon the liver, stomach and bowels, regulating the secretions and excretions of the body, has a decided effect in this disease.

To take out Mildew.—Use bar soap and powdered chalk. Wet the cloth, rub on the mixture, and let it dry in the sun.

Mildew may also be removed, by dipping the article in sour buttermilk, laying in the sun, and after it is white, rinsing in fair water. Soap and starch with half as much salt as there is starch. The juice of lemon is very good.

To cure Felons.—Put the felon finger in hot lye of wood ashes, as hot as can be borne, for some time, and it will remove the pain.

In Hanging or Drowning expose the chest as quickly as possible, and throw the coldest water you can procure plentifully over it, whilst the body is kept in a sitting position.

The Best Family Medicine is Hutchins' Pills.

HEADACHE.

The cure of this troublesome disease has engaged the minds of many medical philosophers, but all have failed to arrive at any beneficial results, until Dr. Hutchins began the investigation. We pronounce him successful beyond the possibility of a doubt. We hear every day the praise of his Headache Pills, and under their refreshing influence we have seen eyes sparkle that have been dim for years.—*Vermont Paper*.

To preserve Fruit-Trees from Mice and Insects.—Apply, early in the fall, around the root a thick layer of lime and ashes. It would be well to sink the earth around the tree about six or eight inches; throw in a few shovelfuls of the lime and ashes, and then cover up with earth, trampling it well down.

HEADACHE.

We call the attention of our readers to a notice in another column, of Dr. Hutchins' Pills. They are recommended as the best Headache Medicine ever invented, and according to the testimony given by those who have used them, they are doing more for the cure of Headache than anything yet offered to the public. Those who are afflicted with this distressing complaint can easily try a box, as they are kept by all our Druggists.—*Portsmouth Paper*.

Cure for Bots.—Give the horse 1 ounce of slacked lime three times a week, mixed with his food, for two or three weeks.

Soft Pomatum.—Suet, 9 pounds; lard, 10 do.; beeswax, 8 ounces; gum benzoin, 5 ounces. Perfume.

To Set Colors, etc.—Beef's or ox's gall, will set any color—silk, woollen, or cotton. One large spoonful of this in a gallon of warm water is sufficient. It is likewise excellent for taking out spots from bombazine, bombazet, etc.; after being washed in this they look about as well as new. It must be well mixed with the water. It is used without soap.

It is good policy to have a bottle of beef's gall constantly on hand. It can be bought for a trifle at the slaughter-house of the butchers.

When colors incline to fade, the color can be set, by washing them in lukewarm water, with beef's gall, in the proportion of a teacupful to four or five gallons of water. Rinse them in fair water; no soap is necessary, without the clothes are very dirty. If so, wash them in lukewarm soda, after they have been first rubbed out in beef's gall water.

The beef's gall can be kept several months, by squeezing it out of the skin in which it is enclosed, adding salt to it, and bottled and corked tight. A little vinegar in the rinsing water of pink, red, and green calicoes, will brighten the colors, and keep them from mixing.

Wash for Fruit-Trees.—You constantly recommend that fruit trees should be done over with lime as a wash. Nothing can be more frightful than their glaring conspicuous trunks on a hot summer's day; and to obviate this dis-sight I use cow-dung, soot, or wood-ashes, mixed up with urine, the drainage of a dung-mix, ammoniacal water from the gas-works, to the consistency of thin paint. This composition appears to me to possess all the advantages of the lime, and the trunks of the tree appear lessened, and altogether much more pleasing to the eye.—*Farmers' Journal*.

SICK HEADACHE arising from a disordered state of the stomach and bowels is entirely cured by using Hutchins' Headache Pills.

To Color your Hair Black see 2d page of Cover.

HUTCHINS' HEADACHE PILLS.

These are recommended with the utmost confidence as the best purgative medicine known; they cleanse the stomach, remove the various affections of the Liver, Costiveness, Headache, and giddiness of the Head.

Molasses Gingerbread.—Molasses, milk, sugar, 1 cup each; 4 cups flour, $\frac{1}{2}$ cup butter, 1 lb. raisins, a teaspoonful saleratus. Spice to suit the taste. Bake from one to one and a half hours.

Of all the ills that human flesh is heir to, Headache and Neuralgia seem to be the most prevalent and the most troublesome; but we are happy to announce "to all the world and the rest of mankind," that Dr. Hutchins' Headache Pills are the safest and most speedy remedy in existence. Having tried them in our own family we can confidently recommend them. For sale by all druggists, for 25 cents a box.—*N. Y. Visitor.*

Muffins.—A quart of milk, two eggs, two spoonsful of yeast, two pounds of flour, a lump of butter size of an egg, which is to be melted in the milk, and a little salt; the milk is to be warmed and the ingredients added. Let it rise, and then turn the mixture into buttered pans, and bake to a light brown.

To Clean Black Veils.—Pass them through a warm liquor of bullock's gall and water; rinse in cold water; then take a small piece of glue, pour boiling water on it, and pass the veil through it; clap it, and frame to dry.

Beans with Corn.—We are decidedly averse to mixed husbandry, as a general thing, but a few beans, dropped by the side of a hill of corn—not in it, are, we think, no injury to the standard crop.

If you desire large, smooth, well developed potatoes, plant only such as possess the specific qualities you prefer to propagate—and plant them whole. True, even excellent specimens may sometimes be obtained from "cuttings," but this is an exception to nature's rule.

Watery Potatoes.—We every day hear complaints about watery potatoes. Put into the pot a piece of lime as large as a hen's egg; and how watery soever the potatoes may have been, when the water is poured off the potatoes will be perfectly dry and mealy.

Tooth Powder.—Two ounces of Peruvian bark, two ounces of myrrh, one ounce of chalk, one ounce of Armenia bole, and one of orris-root.

The above articles should be finely pulverized, and then run through a very fine crape sieve.

HEADACHE is often caused by indigestion and stomach diseases. The treatment should be in restoring the healthy action of the stomach, by using Hutchins' Headache Pills, which will be found the only sure remedy.

To Preserve Butter for Winter Use.—Take two parts of the best fine salt, one part finely ground loaf sugar, and one of saltpetre. Pulverize and mix them well together. To each pound of butter worked perfectly free from milk, put one ounce of this composition; work it well into it, and pack it down in stone pots, or wooden firkins. Butter packed in this way will be found equal to the best rose butter, and will remain sweet for years, if not exposed to the air.

If wooden firkins are used, they should be well soaked in brine, previous to the butter being packed in them.

For the Headache use Hutchins' Headache Pills and be Happy.

ACID STOMACH.

There is no medicine so well calculated to relieve this peculiar condition of the stomach as Hutchins' Headache Pills.

Death caused by Prussic Acid, says a German paper, is only *apparent*; life is immediately restored by pouring acetate potash and common salt, dissolved in water, on the head and spine.

Poison.—Give an emetic of a teaspoonful of mustard flour in a teacupful of warm water every ten minutes, till vomiting ensue or medical assistance can be procured.

LONGFELLOW ON THE HEADACHE.

Should you ask me what will cure you
Of the Headache, the Sick Headache,
Nervous Headache, Bilious Headache,
Headache of all kinds and powers,
I can tell you, I can tell you;
Hutchins' Headache Pills will do it,
Buy them, try them, and you'll say so.

Candles.—Candles will burn much clearer, and tallow will not "run," if you steep the wicks in limewater and saltpetre, and dry them previous to dipping.

HEADACHE is often produced either from sympathy with the stomach, or weakness or exhaustion of the Brain; in such cases a dose of Hutchins' Headache Pills will be found highly beneficial.

To make the Teeth White.—A mixture of honey with the purest charcoal, will prove an admirable cleaner. It should be applied once a day with the tooth brush.

Lavender Water.—Take a half pint of rectified spirits of wine; essential oil of lavender, two drachms: otto of roses, five drops. Mix all together in a bottle, and cork it for use.

Cologne Water.—One gallon of alcohol, (90 or 95 per cent. ;) half ounce oil of bergamot, one ounce of lavender, one ounce of lemon, half ounce tincture of musk, half ounce oil of orange, and a little otto of roses.

AS A FAMILY PHYSIC, Hutchins' Headache Pills is the best Medicine that has ever been used, so says a mother of ten children.

To prevent Tea-Kettles Coating with Lime.—Put the shell of an oyster in the tea-kettle, and the lime will adhere to it instead of coating the sides.

Diarrhœa.—Parch half a pint of rice perfectly brown; then boil it as usual, and eat it slowly; it will check it in a few hours. Or, take a tablespoonful of West India rum, tablespoonful of sugar molasses, and the same of sweet oil, well simmered together.

Balsam for Chapped Lips.—Two spoonsful of clarified honey, with a few drops of lavender-water, or any other perfume. Mix, and anoint the lips frequently.

To make Castor Oil Palatable.—Boil castor oil with an equal quantity of milk, sweetened with a little sugar. Stir it well and let it cool.

For Cleansing the Stomach use Hutchins' Pills.

DON'T SUFFER FROM HEADACHE.

The only sure remedy in the world is Dr. Hutchins' Headache Pills, the efficacy of which thousands can testify; and if we did not use them in our own family, we should not recommend them so confidently.—*Transcript.*

For sale by the Druggists.

To Stop Blood.—Soot, applied to a fresh cut or wound, will stop the blood and abate the pain at the same time.

Napoleon, in his Russian marches, and in the depths of the snows of Switzerland, was continually afflicted by the ordinary scourge of *Headache*, which was a universal monitor of all the various diseases of which his army suffered.

NO MISTAKE.

Dr. Hutchins' Pills will as surely cure the Headache and Neuralgia, as they are taken, for their name is legion who can testify to their efficacy.—*Boston Bee.*

CAMPBELL ON THE HEADACHE.

Melt and dispel, ye spectre-doubts, that roll
Cimmerian darkness o'er the parting soul,
A remedy for Headache hath been found!
'Tis *Hutchins' Headache Pills*; prolong the sound!
The great Millenium comes, the day so blest!
When every *aching head* shall be at rest!

NEURALGIA.

How common it is to hear people complain of that dreadful disease. Hutchins' Headache Pills are a sure remedy. Only 25 cents per box. Sold by druggists generally.

Sure Death to Fleas.—Cocculus Indicus, one ounce; Turpentine, one pint.

Washing Silk Goods, &c.—1. Silk goods should have the spots extracted before being washed. Use hard soap for all colors but yellow, for which soft soap is best. Put the soap into hot water, beat it until perfectly dissolved, and then add sufficient of cold water to make it lukewarm. Put in the silks, and rub them in it till clean; take them out without wringing; and rinse them in fair lukewarm water. Rinse them in another water, and for bright yellow, crimson and maroons, add *sulphuric acid* enough to the water to give it an acid taste before rinsing the garment in it.

2. To restore the colors of different shades of pink, put in the second rinsing water, a little vinegar or lemon juice; for *scarlet* use a solution of tin; for *blues, purples*, and their shades, use *pearlash*; and for *olive greens* dissolve verdigris in the rinsing water; *fawns* and *browns* should be rinsed in the pure water.

3. Colored pantaloons look very well washed with beef's gall and fair warm water, and pressed on the wrong side while damp.

Butter is improved by working the second time after the lapse of twenty-four hours, when the salt is dissolved and the watery particles can be entirely removed.

Sore Throat.—Take twenty drops of spirits of turpentine on loaf sugar every night till cured. Black currant jelly hastens the cure.

For Coloring the Hair Black see 2d page of Cover.

JAUNDICE.

A diseased condition of the system attended with obstruction of the natural passage of the bile, occasioning a yellow tinge of the skin and whites of the eyes. The digestive powers are always more or less weakened, and general coldness and torpor of the system prevails. This disease proves most troublesome in the Spring of the year. We know of no medicine which has been used with such decided advantage to the patient as Hutchins' Headache Pills in this disease. Let no family be without them, especially in the Spring of the year when this disease proves of so frequent occurrence, and not unfrequently lays the foundation for a long fit of sickness, which might be entirely prevented by a box of these Pills.

Black Cake that will keep a year.—Sugar, 1 pound; butter, 1 pound; flour, 1 pound; ten eggs; brandy, 1 gill; raisins, 2 pounds; currants, 2 pounds; mace, nutmegs, and cloves to flavor. Bake it well.

Feather Cake.—Sugar and milk 1 cup each, $2\frac{1}{2}$ cups flour, 2 teaspoonfuls cream of tartar, 1 egg, 1 teaspoonful shortening, 1 teaspoonful saleratus.

BRYANT ON THE HEADACHE.

Hast thou Headache?

Take Hutchins' Headache Pills, and soothed
By an unfaltering trust, approach thy bed
Like one that wraps the drapery of his couch
About him, and lies down to pleasant dreams.

HEADACHE frequently proceeds from an overflow of blood to the head: by using Hutchins' Headache Pills, they will equalize the blood, and restore the functions to a healthy action.

To remove Flies from Rooms.—Black pepper, (powdered,) 1 drachm; brown sugar, 1 drachm; milk or cream, 2 drachms. Mix, and place it on a plate or saucer where the flies are most troublesome.

As a Family Physic Hutchins' Headache Pills are the best Medicine known, for all common complaints, such as Liver, Bilious, Nervous, Dyspeptic and Dropsical affections. They regulate the stomach and bowels, and give a healthy tone to the stomach generally. When their merits are once known they will take the place of all other Cathartic Medicines.

Cheap Paint for a Barn.—An excellent and cheap paint for rough wood-work is made of six pounds of melted pitch, one pint of linseed oil, and one pound of brick-dust or yellow ochre.

Recipe for Asthma.—The following recipe for the Asthma has been handed to us by a gentleman of intelligence, says the Frederick Herald, who, as we know, has long and grievously suffered with that complaint and has handed this recipe to us in hopes that others suffering like himself may be relieved:

Dissolve one ounce of saltpetre in a pint of water—dip sheets of fine brown paper in the solution until they are saturated—dry the paper; when a fit of the Asthma comes on, tear a strip or two from a sheet and burn the strips; the patient being near the smoke so long as the burning continues. The above simple remedy has given more relief to a sufferer for 27 years of the asthma than any other remedy he ever used.

LIVER COMPLAINT,

Which proves so troublesome at the present day, is characterized by some of the following symptoms: Yellowness of the skin and whites of the eyes, pain in the side, and under the shoulder blades, accompanied with a dry, harsh, contracted state of the skin, loss of appetite, bad taste in the mouth, extreme restlessness at night — and dizziness in the head. In such cases distress after meals, attended with *heartburn* and constipation of the bowels.

Hutchins' Headache Pills is peculiarly adapted to relieve all the above unpleasant symptoms, and will, if persevered in, entirely effect a cure in the worst cases. Do not despair of a cure, but go immediately and get a box of Hutchins' Headache Pills. Only 25 cents.

Water-Proof Blacking and Harness Polish.—Take two and a half ounces gum shellac and half a pint of alcohol, and set in a warm place until dissolved; then add two and a half ounces Venice turpentine, to neutralize the alcohol; add a tablespoonful of lampblack. Apply with a fine sponge. It will give a good polish over oil or grease.

Husk Beds.—Select the inner husks, throwing aside the outside husks. Clip the points, or the blackened tips merely. Do not split or lacerate the husks, but put them in the tick whole, not even clipping the butts. In this way they are much more durable. Once in about two years separate all the fine husks, pieces, and dust, and replenish with new husks sufficient. Husks are far preferable for under-beds to anything yet discovered. The United Society have used them for nearly fifty years.

NERVOUSNESS.

The cure of nervousness is best effected by restoring the healthy action of the Stomach and Bowels, and by the use of proper exercise especially in the open air. The Stomach should not be overloaded with indigestible food, and the bowels should be occasionally relieved by the use of Hutchins' Headache Pills, which act as a gentle cathartic.

Hair Curling Liquid for Ladies.—Take *Borax*, 2 ounces; *Gum Arabic* (*Senegal*) in powder, 1 drachm, add *hot water*, (not boiling,) 1 quart. Stir, and as soon as the ingredients are dissolved, add three table-spoonsful of strong *Spirits of Camphor*. On retiring to rest, wet the hair with the above liquid, and roll it in twist of paper, as usual.

STRANGE INDEED.

That any one should suffer Headache or Neuralgia, when they can be so speedily cured by the use of Dr. Hutchins' Headache Pills, which have never failed to give perfect satisfaction. Sold by our Druggists.—*Bangor Paper*.

To Preserve Apples, Pears, etc.—Take apples or pears, and peel them, then cut them into eighths, observing to extract the core; dry in a kiln or oven until quite hard. For use, wash the fruit in water, then pour boiling water on it, let it stand for a few minutes and use it as fresh fruit. The water forms an excellent substitute for fresh juice.

Whooping Cough.—Twenty grains of salt of tartar, and ten grains of cochineal, with an ounce of refined sugar, dissolved in water. Dose—for a child four or five years of age, a teaspoonful three times a day, and a little every time the cough is troublesome. This has cured thousands; the *relief* is immediate, and the cure generally in four or five days.

BILIOUS AFFECTIONS.

Many persons are great sufferers from a redundancy of bile, destroying the digestive organs. Such persons should depend upon prevention more than cure, and make use of that diet which will prevent the accumulation of bile; for examples, *pepper sauce, mustard, stewed fruits*, of various kinds. Much exercise should be taken, to excite a healthy action of the digestive organs. It will be necessary to abstain from all kinds of greasy meat, sweet articles, pastry, and rancid butter. Costiveness must invariably be prevented. When a person is laboring under a bilious complaint, he may take a dose of Hutchins' Headache Pills occasionally, which will be found highly beneficial.

Dr. Kane, the Martyr and Hero of arctic research, observes, in his diary, that Headache ever alarmed them of the approach of exhaustion, and so we find that, despite of all outside influence which benumbs the blood, and froze the very current of life at its fountain, still that faithful sentry of disease (that God created guardian of the portal of health,) the pang of the *Headache* was ever true to its calling, and ready in its discharge.

DYSPEPSIA,

A disease which proves troublesome to thousands at the present day, characterized by some of the following symptoms: a low temperature of the body, especially cold hands and feet, oppression, tenderness and distress at the pit of the stomach, torpid bowels, heartburn, frequent belchings, sour eructations, offensive breath, often some degree of fever or excitement after meals, appetite irregular or depraved, sometimes entirely gone, spirits variable, frequently depressed.

These are a few of the prominent symptoms attending Dyspepsia; Hutchins' Headache Pills are admirably calculated to effect a cure in this disease, operating, as it does, upon the mucous membranes of the stomach and bowels, changing them from that morbid condition which they are in, to a perfectly healthy state, and so regulating the action of the stomach, that the food will readily be digested, and all unpleasant symptoms removed.

How to Enlarge Vegetables.—A vast increase of food may be obtained by managing judiciously, systematically carrying out for a time the principle of increase. Take, for instance, a pea. Plant it in very rich ground; allow it to bear the first year, say half a dozen pods only. Remove all others. Save the largest single pea of these. Sow it the next year, and retain of the product three pods only. Sow the largest one the following year, and retain one pod. Again select the largest, and the next year the pod will by this time have tripled its size and weight. Ever afterwards sow the largest seed. By these means you will get peas, or any thing else that you plant, of a bulk of which we at present have no conception.

To take out Pitch, Tar, Rosin, Paint, etc.—Pour a little alcohol on the place, and let it soak in about half an hour. Then rub it gently, and you will find the alcohol has soaked out the glutinous quality, so that it will easily crumble out.

To extract Paint from Cotton, Silk, and Woolen Goods.—Saturate the spots with spirits of turpentine, and let it remain several hours; then rub it between the hands. It will crumble away without injuring either the color or the texture of the article.

NAUSEOUS SICKNESS.

Nausea, Sickness at the stomach and Excessive Vomitings which prove so troublesome through the summer months from eating unripe fruit or any indigestible substance, can be checked quicker by Hutchins' Headache Pills than by any other known remedy. They need only to be tried to prove the assertions which have been made respecting the curative effects of this potent remedy.

NERVOUS HEADACHE is completely cured by Dr. Hutchins' Headache Pills; they act gently on the system, quietly removing the cause of the disease.

How to foretell the Weather.—We have seen many people who could always answer truly, "what will be the weather to-morrow," yet there are signs that are useful to sailors and farmers, and pretty correct prognostics are formed by attentive observers. Even the unbelievers of old were declared to be judges of the coming weather, though stupid in regard to spiritual signs.

A few general rules will be named for young haymakers. When the wind is south, or east of south, look out for bad hay weather; it will rain in twelve hours, even though there was a drought. When the sun sets in a cloud, don't leave much hay in winrows. When the sun rises clear and soon passes behind a cloud, look out for foul weather. When a storm clears off in the night time, it will rain again soon. A circle around the moon indicates foul weather.

For all parts of Massachusetts, a southwesterly wind gives the best promise of a steady hayweather. A west wind is more uncertain; a north-west is still worse; and a north-east or east wind is that which gives you clouds and small showers for two or three weeks together; not bringing a sudden shower but a course of alternate dripping and dry clouds. *Note.*—All signs of rain fail in very dry weather.—*Mass. Ploughman.*

How to do up Shirt Bosoms.—Take two ounces of fine white gum arabic powder—put it in a pitcher, and pour on a pint or more of boiling water, according to the degree of strength you desire—and then having covered it let it stand all night—in the morning, pour it carefully from the dregs into a clean bottle, cork it and keep it for use. A table spoonful of gum water stirred in a pint of starch, made in the usual manner, will give to lawn, either white or printed, a look of newness, when nothing else can restore them after they have been washed.

Brunswick Black for Grates.—Asphaltum, 5 pounds; melt, and add boiled oil, 2 pounds; spirits of turpentine, 1 gallon. Mix.

Whitewashing.—There is nothing which so much improves the appearance of a house and the premises, as whitewashing the tenements and fences.

Take half a bushel of unslacked lime, and slack it with boiling water, cover it during the process. Strain it and add a peck of salt dissolved in warm water, three pounds of ground rice boiled to a thin paste put in boiling hot, half a pound of Spanish whiting, and a pound of clear glue dissolved in warm water. Mix and let it stand several days. Keep it in a kettle, and put on as hot as possible with a brush.

Note.—This is the receipt used for the President's house at Washington, improved by farther experiments. It is said to look as well and last as long as oil paint, on wood, brick or stone.

Excellent Cheap Whitewash.—Slack the lime as usual, except that the water used should be hot, and nearly saturated with salt; then stir in four handsful of fine sand, to make it thick like cream. Coloring matter can be added to both, making a light stone color, a cream color, or a light buff.

HUTCHINS' HAIR DYE.

This is an unrivaled article. No inconvenience attends its application, and its effects are entirely satisfactory. The Dye is sold in all the principal markets of the Union, and has a sale beyond all precedent. Being personally acquainted with the proprietor, we know whereof we affirm.—*St. Charles Republican*.

AN EXCELLENT ARTICLE.

We had occasion, the other day, to test the efficacy of Dr. Hutchins' Headache Pills in one of the severest cases of Headache that we ever suffered, and in less than an hour found relief. Our readers need not suffer with Headache when the remedy can be found at our Druggists.—*Newport Sentinel*.

To make Small Beer.—Hops, one ounce; water, one gallon; boil for ten minutes, strain, and add one pint of molasses, and when lukewarm, yeast, one spoonful. Ferment, then bottle.

To destroy Insects in Vines.—Soft soap, 2 pounds; flour of sulphur, 2 pounds; powdered tobacco, 2 pounds; boil for half an hour in water, 6 gallons. Apply lukewarm.

Sting of the Bee.—Common whiting proves an effectual remedy against the effects of the sting of a bee or wasp. The whiting is to be moistened with cold water, and applied immediately. It may be washed off in a few minutes, when neither pain nor swelling will ensue.

NEURALGIA.

In this disease there is no swelling of the part or sign of inflammation, but a darting, throbbing pain, and acute soreness or sensibility. The ache is subject to intermissions, and the disease is almost always chronic or of long duration. It sometimes attacks the face, and indeed every other part of the body to which the nerves are distributed. It is doubtless of the same nature with the Nervous Headache. In the face, it is called tic douloureux, and the pain shoots from the region of the mouth to the eye, and often to the ear, and over the cheek, teeth and jaws. The pain follows the course of particular nerves. Hutchins' Headache Pills have been found to give relief when all other remedies have failed.

Luting for Grafting Fruit Trees.—Take train oil and resin equal parts, and melt it in an earthen vessel; mix well, and apply with a painter's brush. This is in general use in the north-west part of France; and where it is employed it is said that the grafts never fail.

To Protect Trees and Shrubs from the attacks of Hares.—Take tar, 1 part; tallow, 6 parts. Apply hot to the bark of the tree with a paint-brush.

Composition to Heal Wounds in Trees—Chalk, 4 parts; tar, 2 parts; brick-dust, 1 part. Melt, and apply warm.

Rouge.—Half a pound of levigated French chalk, mixed with two ounces of carmine, is a common preparation.

Common Salt put into water where domestic calicoes are washed, will prevent the colors fading. So says a dry-goods merchant, and desires us to give the fact publicity. A female friend of ours says two spoonful of beef gall are still better

HEADACHE, FEVER AND AGUE, CATARRH, AND JAUNDICE.

The above are usually produced from the impure state of the stomach, and should be cleansed by the use of Hutchins' Pills, which act on the stomach and bowels, relieve the head without debilitating the body. Dose from 4 to 6.

We offer to the reader a few of the many hundred certificates which we have in our possession:

Certificate from a highly respectable Gentleman in Boston.

DR. HUTCHINS,—*Dear Sir*:—Seeing your advertisement of Headache Pills, in my paper, and being troubled with headache and neuralgia a great deal, in spite of all attempts to remedy, I obtained one box of Hutchins' Headache Pills, and took them according to directions, and without repeating the dose, found myself perfectly well.

Franklin, Iowa, June 1st, 1856.

DR. HUTCHINS,—*Dear Sir*:—I was most happily disappointed in your Headache Pills—you recollect I had doubts about their selling in a new country, but on my arrival at this place, I gave away a few boxes to those who were troubled with headache, and the effects were wonderful, and in no case whatever did they fail of giving relief. I have sold all but two boxes. I wish you would send me six gross by my brother, who will settle with you.

Yours respectfully, J. B. HUSE.

More testimony without solicitation. Certificate from Mr. W. G. Bartholomew, connected with Thompson & Co.'s Express:

DR. HUTCHINS,—*Dear Sir*:—It is with pleasure that I add my testimony in favor of your Headache Pills. No man ever suffered more with sick headache than I have within the last few years. I have tried every remedy which has been offered to the public, but without success, until I tried your Headache Pills, which gave me relief in twenty minutes, and in less than two hours I was perfectly cured. I have tried them again and again with the same effect. I gave some to my friends who have suffered from headache, all of whom used them, and in every case found relief. I would say to all who are suffering from headache, try a box of Hutchins' Headache Pills; it will only cost you 25 cents, which you will never regret.

W. G. BARTHOLOMEW.

DR. HUTCHINS,—*Dear Sir*:—I received a box of your Headache Pills, per mail, agreeable to my order, and with due regard to their merits as also a sense of my obligation to suffering humanity, I am happy to pronounce them invaluable, and would take this opportunity to recommend them, in cases of Headache and Neuralgia.

D. R. HOLT, 52 Cedar-st., New York.

This certifies that I have been frequently troubled of late years, with the Throbbing Headache, which has sometimes made me well nigh crazy. My friends have left no stone unturned to procure me relief, but without avail, until my eye caught, the other day, an advertisement of Dr. Hutchins' Headache Pills. My mother instantly procured a box for me, and oh! I can never be thankful enough for the relief they have afforded me, and it is with gratitude that I pen this well deserved commendation.

SUSAN R. MIRES

Manchester, April 10, 1856.

New Haven, Jan., 1858.

This certifies that I have been troubled for a long time with acute headache, and have found no relief till I procured Dr. Hutchins' Headache Pills. To them I owe entire freedom from it. I have recommended it to all my neighbors, who have suffered from the same cause, and am rejoiced that they have been alike cured.

ELIZA A. BENTLEY.

TO THE AFFLICTED.—Having tried Dr. Hutchins' Headache Pills, I am happy to give my testimony in their favor, and would recommend them to all persons who are suffering from Headache and Neuralgia, as I have been effectually cured from Neuralgia, from which I have suffered for years, while all other remedies have failed. Signed, M. WALCOTT, Chicopee, Mass.

Salem, April 3d, 1855.

This certifies that I have long been a sufferer from Chronic Headache, unable to sleep by night, or enjoy any repose by day: but now, thanks to Dr. Hutchins' Headache Pills, I am a new man. Let all who have been afflicted like me, try a box of Hutchins' Headache Pills, and I am sure they will never be sorry.

S. C. ROACH.

Springfield, April 3d, 1856.

DR. HUTCHINS:—I wish to express my gratitude to you for the great benefit which I have received from taking your Headache Pills. I have been subject to the headache for a great number of years, and have tried everything that has been recommended, but found no relief till I accidentally heard of your Headache Pills. I was induced by a friend who had been cured of the headache to try them. I did so, and for the last four months I have been entirely free from headache. Signed,

MRS. L. E. SMITH.

DR. HUTCHINS,—*Dear Sir:*—Permit me to express my heart-felt gratitude to you for having, by the use of your Headache Pills restored me from a confirmed invalid to a perfect specimen of health. For seven years I was severely afflicted with headache and neuralgia, so much so, that life seemed a burden to me,—yet, friends were numerous and recommended many remedies, but all to no purpose. About one year ago your advertisement came under my observation as the only medicine which I had not tried. I obtained a box of the Pills, which gave me relief, and before the second box was exhausted I found myself perfectly well. Yours truly,

HENRY G. MERRIWEATHER.

Certificate from a highly respectable Physician of New York City.

This certifies that I have used Dr. Hutchins' Headache Pills in my practice for Plethoric, Catamenial, Hæmorrhoidal, Dyspeptic, Febrile, Puerperal, Catarrhal, and Nervous Headaches, with great success.

ROBERT MOONEY, M. D.

New York, May 10, 1857.

This certifies that my whole family, consisting of my wife and three children, have been for many years the subjects of Periodic Headache. I have tried every means within my reach to afford them relief, but have been baffled in all my undertakings, till I procured for their use a box of Dr. Hutchins' Headache Pills. They have entirely removed the affliction. I mean, hereafter, to keep them always on hand.

CHAS. R. GOODWIN.

I, the wife of Charles R. Goodwin, join in the above statement.

ANN J. GOODWIN.

Certificate from Capt. John B. Brown, of the ship Jane.

New York, June 10, 1857.

DR. HUTCHINS,—*Dear Sir:*—It is with pleasure that I add my testimony in favor of your Headache Pills. Just before I sailed on my voyage to Liverpool, I was induced to purchase a box of your valuable Pills at the drug store where I was having my medicine chest replenished. The third day out from New York, one of my men was attacked with a violent pain in the head, and I had great fears of the brain fever. I gave him a powerful dose of your Pills, which, I think, saved him from a fit of sickness. I have also used them with good success for sea-sickness, which I have found in all cases to give relief sooner than anything I ever tried.

JOHN B. BROWN, of the Ship Jane.

Certificate from D. M. Tuthill, Esq., President of the Young Men's Association, Troy, N. Y.

Troy, June 10, 1856.

MR. HUTCHINS,—*Dear Sir*:—I have used, occasionally, for about a year, your Headache Pills, and have always found them to be a pleasant, speedy and certain cure for the headache. Yours truly, D. M. TUTHILL.

TO WHOM IT MAY CONCERN.—This is to certify that I have used Dr. Hutchins' Headache Pills in my family for the last four months with the most gratifying results, and I consider them the safest, surest and most speedy remedy for Headache and Neuralgia that has ever been introduced. Signed,

JOHN L. R. WISTON, Springfield.

Hartford, Ct., June 3, 1856.

This certifies that my wife has been troubled many years with the Sick Headache. We have tried almost everything, but to no effect, until we heard of Dr. Hutchins' Headache Pills. Although of little faith, we determined to give them a fair trial, and are pleased to say that they have been entirely successful. My wife has not had an attack of the headache since she commenced taking them.

J. W. RHODES.

Certificate from Wm. Ball, Esq., of Chicopee, Mass., who is widely known for his many valuable and useful inventions.

H. HUTCHINS,—*Dear Sir*:—Having used your Headache Pills for many years and received great benefit, I can recommend them as being the very best Medicine that I have ever tried, not only for Headache, but also as a Family Physic, which has in all cases proved satisfactory.

When traveling, I am subject to Sick Headache, and always find relief by taking your Pills, and I have given away many Boxes to those suffering like myself, which has brought relief to aching heads.

Yours truly, WM. BALL.

Springfield, Mass., Sept., 1859.

DR. HUTCHINS,—*Sir*:—As I have received so much benefit from your Headache Pills, I feel it my duty to recommend them to all suffering from Sick Headache or Neuralgia. I have been troubled with Sick Headache for years, and have tried everything that has been recommended without receiving any benefit, until I began using your Headache Pills, which have helped me more than anything I ever tried. I cannot withhold my testimony in their favor, and recommend them to all those who are troubled with the Sick Headache. I would not be without them for any consideration.

MRS. CLARA A. SIBLEY.

Massasoit House, Springfield, Mass., Sept. 8th, 1859.

DR. HUTCHINS,—*My Dear Sir*:—It is with great pleasure and gratitude that I take this opportunity of expressing my unbounded confidence in your Headache Pills. I have been troubled with *Inflammatory Rheumatism* for a long time, and have suffered beyond all account. I have tried almost everything without any benefit, and as a last resort, thought I would try your Pills, which were highly recommended to me by a friend who had used them and found relief. I began taking them, and in less than one week the pain began to subside, and the fourth week I found myself entirely free from this troublesome complaint.

Yours truly, J. R. HANDEN.

Springfield, Mass., Dec., 1859.

FRIEND HUTCHINS:—To your question, "How do the Pills suit your case?" I answer, *admirably*. A sufferer from periodical Sick Headache, from a child, I have used quite a variety of prescriptions, but have found nothing so effectual as your Headache Pills. This also is the experience of several friends who have used them by my recommendation. Yours truly,

GEO. W. WILSON.

We ask attention to the following opinions of the press in favor of Hutchins' Headache Pills:

AN IMPORTANT REMEDY for Liver Complaint and General Debility. We take great pleasure in recommending Dr. Hutchins' Headache Pills as among the very best remedies that has ever come under our observation. The public may rest assured that they are just the thing for Liver Complaints and all diseases caused by a deranged state of that organ.—*Boston News*.

IMPORTANT.—Dr. Hutchins, the discoverer of the great remedy for Headache, whose Pills have already earned an unparalleled reputation for their efficacy, has established an Agency for their sale with the Druggists of this city, and those who are suffering from this malady would do well to try a box. Only 25 cents.—*Manchester American*.

A SURE REMEDY.—We are happy to add our testimony to that of thousands who have been cured of Headache by the use of Dr. Hutchins' Headache Pills, which are a mild, pleasant remedy. If any of our readers are suffering from this complaint, we would advise them to go to the Druggists and obtain a box of Hutchins' Headache Pills. Only 25 cents.—*N. Y. Knickerbocker*.

DR. HUTCHINS' HEADACHE PILLS.—Among all the remedies that we ever tried for Headache and Neuralgia, none have been so effectual as the above Pills, which are sold by all Druggists, and no one need suffer an hour when such a remedy can be obtained.—*Lansingburg Gazette*.

APOLOGY.—Unlike the author of Pilgrim's Progress, who wrote but to divert himself, not his neighbor to gratify, we would ask no apology for proclaiming to the world that "a balm is found in Gilead." Dr. Hutchins' Headache Pills, which have received the favorable testimony of thousands, and for sale by at least one Druggist in every town in the country.—*Boston Advertiser*.

TO OUR FRIENDS AND PATRONS.—We feel that no better service can be rendered you at this time, than to recommend Dr. Hutchins' Headache Pills, which have been the means of our complete recovery from Headache and Neuralgia. Sold by all the Druggists of this city.—*Albany Times*.

TO THE AFFLICTED.—We never recommend any medicine without being convinced of their efficacy, and having tried Dr. Hutchins' Headache Pills, we pronounce them superior to anything else for Headache, and would advise people suffering from those diseases, to go to the druggists and get a box.—*Springfield American*.

A REAL BENEFACTOR.—Having been cured of Headache and Neuralgia by the use of Dr. Hutchins' Headache Pills, we consider him a benefactor of his race, and his Pills an invaluable remedy which no family should be without.—*Newburg Herald*.

HEADACHE.—Throw your Cologne water and vinegar to the dogs; exercise a little common sense; take Hutchins' Headache Pills and go about your business.—**HEADACHE.** Pooh! Got your head bandaged up have you? Well, you are a pretty looking peep.—Tear off that bandage; take a dose of Hutchins' Headache Pills, and quit moping round, half dead. To be had at the Druggists for 25 cents.—*Fitchburg Sentinel*.

DR. HUTCHINS' HEADACHE PILLS.—In calling the attention of the public to the advertisement of these Pills, we were induced to try them for a severe Headache with which we were then suffering, and much to our joy and satisfaction, in less than an hour were perfectly well. We take great pleasure in recommending them as a safe and speedy remedy. Sold by all druggists.—*St. Charles Republican*.

FAVORABLE TESTIMONY.—The certificates of two thousand persons who have been cured of Headache and Neuralgia, by the use of Dr. Hutchins' Headache Pills, is the best testimony in the world of their efficacy. The Doctor is preparing to publish them in pamphlet form, for distribution by the Druggists who keep the Pills.—*Traveller Office.*

HEADACHE CURED.—The unbiassed and intelligent students of *Materia Medica* have unanimously proclaimed in favor of the great discovery of Dr. Hutchins. Get his Headache Pills, and you will declare that the one half has never been told you. Can be had at the Druggists in this city.—*Westfield Newsletter.*

HEADACHE DONE AWAY WITH.—The single and seemingly simple subject of Headache has racked the brain of thousands of Physicians, and the temples of tens of thousands of their patients. But Dr. Hutchins has solved the mystery, and offers a Pill that will put their heads to rest at once. Try it. Sold by all the Druggists.—*Boston Despatch.*

HAVING had occasion to apply a remedy for Headache, we were induced to try Dr. Hutchins' Headache Pills, which gave instant relief—the wife and children have taken them with like results—shall keep them on hand in case of an emergency—if any one are suffering with headache or neuralgia, go and do likewise.—*Troy Whig.*

A WONDERFUL DISCOVERY.—Medical Science can now claim an antidote for the Headache and Neuralgia in Dr. Hutchins' Headache Pills. They are a sure and speedy remedy, and we would recommend them to those who suffer with headache from any cause. Sold by all the Druggists throughout the country.—*Worcester Transcript.*

NOW IS THE TIME.—We should never delay for one moment that which requires our immediate action. If any of our friends are suffering with Headache or Neuralgia, send to the Druggists and get a box of Dr. Hutchins' Headache Pills. They are a sure remedy. Price 25 cents.—*Boston Bee.*

DOWN WITH THE HEADACHE.—Describe, arrange, classify, expound and medicate as much as you will the subject of Headache, and you will find that nothing has been found to cure it before the discovery of Dr. Hutchins' Headache Pills. That is even so! They are for sale by all the Drug Stores.—*New London Courier.*

HEADACHE.—Under this caption in another column, may be found the best remedy for the Headache and Neuralgia in Dr. Hutchins' Headache Pills, the efficacy of which we are happy to give our testimony, and would confidently recommend them to all those who are thus afflicted. Sold by the Druggists.—*Waterbury Democrat.*

HEADACHE.—That foe to comfort and ease has at last been conquered. Dr. Hutchins has discovered a remedy which is destined to create a new era in the Science of Medicine. His Headache Pills cure the most obstinate cases of Headache and Neuralgia. Try them, they are a sure cure. Sold by the Druggists.—*New London Star.*

A GREAT REMEDY.—Almost every person suffers more or less from Headache. In the discovery of Dr. Hutchins' Headache Pills, the world has found a remedy, and thousands have testified to their efficacy. Sold by the Druggists.—*Evening Gazette.*

HEADACHE MEDICINE.—We are happy to announce that the long sought for remedy for Headache and Neuralgia, has at last been discovered in Dr. Hutchins' Headache Pills, which can be had of all the druggists for 25 cents.—*Berkshire Eagle.*

The public have long felt the need of a Medicine that would be easy yet safe in its operations, and would affect the Head without debilitating the body. Many nostrums have been palmed off upon the people for this purpose, which have only needed a trial however to show their utter worthlessness, but we now offer them a Medicine which we desire them above all other things to give a thorough trial. Who does not suffer more or less from the Headache? How much time and money have been spent by learned Physicians to discover a remedy for this malady? Who does not know how medical research, science and skill have all been baffled, and still thousands and thousands of heads ache on? But a discovery has been made at last, and a Pill is produced, whose cure of this terrible disease is sure. It is recommended with the most entire confidence and the most implicit faith. It has never been known to fail of giving speedy relief.

As a family Cathartic these Pills are the best medicine known for all common diseases, such as Liver, Bilious, Nervous, Dyspeptic and Dropsical affections. They regulate the Stomach and Bowels and give a healthy tone to the system generally.

Price 25 Cents, or Five Boxes for \$1.00.
